SPRING

Spring is just around the corner and we are all anxious for the warm weather to arrive so we can get our boat launching started!

HIGH WATER

The Army Corp of Engineers has warned about record high water levels again this spring and summer. Unfortunately, marinas all across the Great Lakes have had to make emergency changes to their docks and electrical supply in order to accommodate boats this upcoming season. Some have even had to close access to their docks and send their customers elsewhere. We are happy to say that the Algonac Harbour Club management has been proactive in planning for the high water and every slip is well above water level and electrical is safe and secure in every location.

BOOK YOUR SERVICES

If you need any work done on your boat before you plan to launch, please be sure to call and get your requests on the schedule. All boat maintenance and repair services will be handled through Mick at Colony Marine and he can be reached at 810-794-5517. And, for canvas and upholstery work, call Scott at Anchor Bay Canvas & Upholstery at 586-549-3034.

SECURE YOUR SUMMER SLIPS

The deadline for contracts has passed, so this is your last chance to call the office and secure your summer slip. We have had numerous boaters interested in coming to AHC this summer and will start renting available slips to new customers.
